

- What do I want to learn or understand better?

I want to learn more about scrum and how to efficiently work in a group and deliver qualitative results. I would also like to develop my programming and collaboration skills.

- How can I help someone else, or the entire team, to learn something new?

By sharing my knowledge and by being open and trying to help each member as much as I can. For instance, a coding issue or something else.

- What is my contribution towards the team's use of Scrum?

Since I want to learn more about scrum, my first contribution will be to learn more about it.

- What is my contribution towards the team's deliveries?

We had our first meeting this week where we discussed and finished the social contract and also brought up some ideas for the project. I contributed on the social contract, was active at the meeting and came up with one of the project ideas that we have listed.
