

**What do I want to learn or understand better?**

I need to improve my JavaScript skills to contribute to the work next week. I have only had limited experience with JavaScript before.

**How can I help someone else, or the entire team, to learn something new?**

I still think that I can teach basic HTML, CSS and JavaScript to other group member who have had zero prior experience. Also, can teach others about Scrum.

**What is my contribution towards the team's use of Scrum?**

I helped the team when writing this week's team reflection. Also contributed when deciding what tasks to do at the beginning of the week.

**What is my contribution towards the team's deliveries?**

I was active in the coding of the JSON database as well as the JavaScript code for this week's deliveries. Additionally, I was active in team meetings.
