

- What do I want to learn or understand better?

I now have a somewhat better understanding of the communication towards our database, but there is still more that can be learned. The admin page still has some work to be done so I will continue to focus on that.

- backend works How can I help someone else, or the entire team, to learn something new?

Keep assisting others in areas where I have more knowledge and make myself available for help.

- What is my contribution towards the team's use of Scrum?

I have written and broken down user stories as well as tasks and later been part of getting them done.

- What is my contribution towards the team's deliveries?

I have, together with others, written code for the calendars functionality. It's now possible to make a booking.
