● What do I want to learn or understand better?

I feel like I would like to learn more about testing. We have done some testing but not to the extent I would like. Furthermore, I would like to learn more about the server communication.

● How can I help someone else, or the entire team, to learn something new?

I should be available to help other in areas I have knowledge.

● What is my contribution towards the team's use of Scrum?

I have written and broken down user stories. I have also broken them down to task and have taking part of completing them.

● What is my contribution towards the team's deliveries?

I have focused on small fixes this week. For example, testing the flow of the website and relatively small changes in the CSS. Furthermore, have I focused on the calendar. This week it was deadline for kandidatarbetet, because of this the velocity of my work was lower than usual.
